TECHNICAL PROJECTS

NYC Airbnb Tableau Dashboard

Remote

- Analyzed 40K+ Airbnb listings to uncover pricing inefficiencies, seasonal booking trends, and host activity
- Cleaned and transformed 1000+ raw data entries to eliminate corruption and ensure analytical accuracy
- Built an interactive dashboard with 8+ visuals to improve host strategy and investor decision-making

Accenture Data Analytics and Visualization – Simulation

Remote

- Analyzed 7 data sets for a mock social media company to drive decisions and enhance traffic by 15%
- Identified 5+ KPIs to evaluate the efficacy of client content strategies, providing metric-based insights
- Designed a PowerPoint deck conveying key insights to clients and internal stakeholders effectively

PROFESSIONAL EXPERIENCE

Capital One

McLean, VA

Data Analyst Intern

June 2026 - Present

- Engineered the Control Health QuickSight dashboard, consolidating 4 legacy tools for Risk Management
- Queried 600K+ row Snowflake dataset to craft 10 visuals tracking key risk indicators and control efficiency
- Interviewed power users across 3 teams to translate daily workflows into consistent reporting requirements
- Documented QuickSight platform features and gaps across 4 sprints, shaping strategy for future deployment

Samsung SDS

Ridgefield Park, NJ

Business and Project Analyst Intern

June 2025 - August 2025

- Developed BI dashboards tracking \$12M+ revenue to reveal profitability dynamics across 8 sales regions
- Partnered with internal stakeholders to bridge SAP workflow dependencies with process improvement needs
- Mapped 10 workflows, locating bottlenecks and designing GenAI-driven automation for growth strategy
- Highlighted process gaps across 6 teams and presented actionable solutions weekly to senior leadership

New Horizon Financial

Hackensack, NJ

Investment Analytics and Advisory Intern

September 2022 – June 2023

- Optimized 10+ client portfolios using data-driven strategies to improve performance and mitigate risks
- Conducted market research on economic trends and asset performance to support portfolio recommendations
- Utilized Excel to build descriptive financial models and visualizations to support investment decisions
- Delivered presentations elucidating market fluctuations, aiding clients in informed decision-making

LEADERSHIP & DEVELOPMENT

Delta Sigma Pi

New Brunswick, NJ

Athletics Chair

January 2025 – May 2025

- Organized 2 intramural teams, sports mixers with other fraternities, and 3+ brotherhood events
- Liaised with exec board to manage event logistics and boost chapter engagement during the semester

Rutgers Supply Chain Association

New Brunswick, NJ

Operations Committee

January 2025 – May 2025

- Assisted VP of Operations with weekly tasks, increasing club involvement and participation by 20%
- Engaged in 10+ board meetings, enhancing knowledge of club operations and building key relationships
